### **DETAILED ACTION**

1. The Examiner has carefully considered Applicant's amendments and remarks filed on 6/13/02. Applicant's amendments to the claims 1-17 have been entered. It should be noted that the layer identification in claim 1 of the Marked-Up version is erroneous. As such, this Office action is based upon the layer identification in the clean copy of the amended claim 1.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Rejections not maintained are withdrawn.

### ***Response to Amendment***

4. Claims 1-17 and 19-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Laurent et al. (US 6132539), substantially for the reasons set forth in section 4 of Paper No. 8, together with the following additional observations.

With respect to Applicant's Response arguing that "the Examiner's believe is totally unsubstantiated by any teaching or suggestion found in the prior art" (Remarks, page 6, first full paragraph), the Examiner repeats (see Paper No. 8, page 3, bottom paragraph) that Laurent expressly teaches that it is known art that "Depending on the composition and thickness of the coating film, this film may also serve as a further means for increasing the stiffness" (column 1, lines 27-32), and in Fig. 3 Laurent's

Art Unit: 1771

coating film clearly encompasses the layer B of the instantly claimed invention, Applicants' argument to the contrary notwithstanding.

With respect to Applicants' argument that surprising results are demonstrated by a comparison of Example 1 to the Comparative example (Remarks, page 5, third full paragraph), the Examiner notes that such results are clearly known art, taught by Laurent, as set forth above.

**5. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
